Quick Guide of Using Google Home to Control Smart Devices

# Chapter 1. Quick Guide of Using Amazon Echo to

## **Control Smart Devices**

## 1. What you need to get started

- Before using Echo to control your smart devices, make sure you meet the following conditions.
- Stable Wi-Fi network which could access to Amazon server. (For mainland China users)
- An Echo device, including Echo, Echo Tap, or Echo Dot.
- An Amazon account.
- Smart Life app and a related account.
- Smart devices.

## 2. Add devices in Smart Life app (Refer to App Instruction)

You can skip this part if you've already added some devices to your Smart Life account, and in the meantime the devices' name are easily recognized.

#### 2.1 Download Smart Life app (Refer to App Instruction)

You can scan the QR code to download the Smart Life app:

You can also search "Smart Life" in either App Store or Google Play to install the app.

#### 2.2 Register a Smart life account and sign in the app (Refer

#### to App Instruction)

Open the Smart Life app, tap "Register" to register an account, then sign in the app.

#### 2.3 Add device and change device's name (Refer to App Instruction)

Sign in with the Smart Life account, add the device, then change device name to a easily recognize word or phrase, like "bedroom light".

## 3. Set up Amazon Echo and enable Smart Life Skill

We suggest using web for configuration in mainland China since Alexa app is not available here.

- User can configure Echo through web or Alexa app.
- Web configuration link: <u>http://alexa.amazon.com/spa/index.html</u>
- Search "Amazon Alexa" in App Store or Google Play to install the app.
- We take app configuration as an example. Configuration through web and app are basically the same.

#### 3.1 Set up Echo with Alexa app

You can skip this part if your Echo is already set up.

- 1) Make sure your Echo device is energized.
- 2) Open the Alexa app by tapping the app icon on your mobile device.
- 3) Type in your Amazon account and password, then tap "SIGN IN".

8) Tap "CONTINUE" when Echo is connected to the network. After an introduction video, tap "CONTINUE" to finish the setup.

#### 3.2 Link Smart Life account to Alexa

1) Tap "Skills" in the hamburger menu, then search "Smart Life". Select "Smart Life" and tap "ENABLE" to enable the Skill.

2) You will be redirected to the account link page. Type in your Smart Life account and password, don'tforget to select the country/region where your account belongs to. Then tap "Link Now" to link your Smart Life account. The country/region, the account, and the password must match with the exact content in Step 2.2

#### 4. Control your smart devices through Echo

#### 4.1 Discover devices

Echo needs to discover your smart devices before it controls them. You can say "Alexa, discover devices" to Echo. Echo will discover devices which have already been added in the Smart Life app.

You can also tap "DISCOVER" to discover the smart devices. Discovered devices will be shown in the list.

Note: every time you change the device's name on Smart Life app, Echo must re-discover before you control them.

#### 4.2 Control devices by voice commands

Now you can control your smart devices through Echo. You can use the following commands to controlyour devices (e.g., bedroom light):

- Alexa, turn on/off bedroom light.
- Alexa, set bedroom light to 50 percent.
- Alexa, brighten/dim bedroom light.
- Alexa, set bedroom light to green.
- Alexa, set bedroom light to warm white.
- Alexa, set air conditioner to 24°C.

## Chapter 2 Quick Guide of Using Google Home to Control Smart Devices

## 1. What you need to get started

Before using Google Home to control your devices, make sure you meet the following conditions.

- A Google Home device, or Android phone with Google Assistant.
- Latest Google Home app.
- Latest Google app (Android only)
- A Google account.
- The device display language must be set to English US.
- Smart Life app and a related account.
- Smart devices.

## 2. Add devices in Smart Life app (Refer to App Instruction)

You can skip this part if you've already added some devices to your Smart Life account, and in the meantime the devices' name are easily recognized.

#### 2.1 Download Smart Life app (Refer to App Instruction)

You can scan the QR code below to download the Smar Life app:

You can also search "Smart Life" in either App Store o Google Play to install the app.

# 2.2 Register a Smart life account and sign in the app (Refer to App Instruction)

Open the Smart Life app, tap "Register" to register an account, then sign in the app.

#### 2.3 Add device and change device's name (Refer to App Instruction)

Sign in with the Smart Life account, add the device, then change device name to a easily recognizedword or phrase, like "bedroom light".

## 3 Set up Google Home and configure in Home Control

Configuration needs Google Home app. Search "Google Home" in App Store or Google Play to install the app.

#### 3.1 Set up Google Home with Google Home app

You can skip this part if your Google Home is already set up

- 1) Make sure your Google Home is energized.
- 2) Open the Google Home app by tapping the app icon on your mobile device.
- 3) Tap "ACCEPT" to agree to the Terms of Service and Privacy Policy. Allow Google Home app toaccess the device location to discover and set up nearby devices.

4) Tap "SIGN IN", choose one Google account that you already logged in on your mobile device. Or follow the instructions to sign in with a new Google account.

device found

- The Google Home app scans nearby devices that are energized and are ready to set up. Tap "SET UP" to set up your Google Home.
- 6) When Google Home app is successfully connected to the Google Home device, tap "PLAY TEST SOUND", it will play a test sound to confirm you are connected to the right device. If you heard the test sound, tap "I HEARD IT"

7) Select the Room (ex Living Room) where your Google Home is located. This helps you identify the device when you want to cast to it. Choose the Wi-Fi network you want to connect to your Google Home. To automatically fetch the password for this network on this device, tap "OK", then the password will populate in the password field. You can also manually enter your password. Then tap "CONTINUE".

 Google Home will now attempt to connect to the provided Wi-Fi network. When Google Home is successfully connected to your Wi-Fi network, tap "CONTINUE".

#### 4. Control your smart devices through Google Home

Now you can control your smart devices through Google Home. Take bedroom light as the example, the supported voice commands are as below:

- Ok Google, turn on/off bedroom light.
- Ok Google, set bedroom light to 50 percent.
- Ok Google, brighten bedroom light.
- Ok Google, dim bedroom light.
- Ok Google, set bedroom light to red.
