

STREX

WiFi ENDOSCOPE

INSPECTION CAMERA

The Strex endoscope is a very handy and practical device in your daily life as it can be widely used for vehicle inspections, pipeline inspections, air conditioning inspections, object searches and more.

Equipped with WIFI, supporting both Android/iOS and having 8 super bright LED bulbs, this endoscope can provide a high-quality image/video for all your inspection needs.

The flexible cable is half-rigid and you can easily use it to reach all hard-to-reach places. Features a built-in rechargeable battery of 2600mAh.

The battery can work for up to 5 hours on a full charge. Making this endoscope a great tool for both home or industrial uses.
