of beautiful materials.

Handmade quality

Handcrafted furniture using
traditional techniques.

Bart Jongman
Company founder

Foreword

Love for the outdoors

“It has always been a dream of mine to create a brand that allows people to enjoy the wonderful outdoor life.”

My passion for garden furniture dates back 16 years where I began with the acquisition of an import company specialising in garden furniture. It wasn't long before I had learnt all aspects of the trade and acquired knowledge of materials and production possibilities. In the subsequent years, together with my team, we developed Mondial

Living into a professional and reliable supplier of top-quality garden furniture for many respected labels.

Passion for the outdoors is what drives us

With this first issue of Mondizine and the presentation of our 2023 collection, we are starting a new chapter. With our knowledge of the market and an eye for stylish and sustainable garden furniture, we have succeeded in developing a collection that has a unique identity and is stylish, durable and endlessly compatible. Welcome to our world, the world of Mondial Living! Be inspired, dream and fantasise alongside us.

Collection 2023

More open, more outdoors

More
for
you

Create a cosy and secure corner with this charming set, where you can enjoy the last rays of the evening sun. This Jolena set has an elegant appearance due to its rounded shapes, which will fit the aesthetics of any garden, balcony, or patio.

At Mondial Living, we have drawn inspiration from various sources when developing new collections of garden furniture, including interior design. We believe that the way we decorate our interior spaces directly influences how we design our outdoor spaces. Therefore, we strive to take the indoor feeling outdoors by applying interior design trends and concepts to our garden furniture. A well-designed garden can be the extension of your interior thus creating a sense of a more open, outdoor-oriented lifestyle.

In addition to interior design, nature has become an inspiration for our furniture collections. We love the beauty and diversity of natural materials, including rattan and bamboo, which has inspired us in the design of our furniture. The 2023 collection has a striking feature in that it combines the use of natural colours with beautiful materials. Within this collection, there are several colour palettes on display, with a specific focus on warm, neutral tones. In addition to these materials and colours, you will also find various textures and patterns have been used in the 2023 collection. This creates a dynamic and versatile collection that is not only stand-alone but also works well in combination with other items in the collection.

Dex collection

The design of the Dex is characterised by its modern retro look. It is precisely this appearance that gives it its unmistakable and atmospheric charm.

1

Dex two-seater

For outdoor enthusiasts who like to sit outside in comfort, this two-seater is the perfect solution. This bench not only offers comfort, but also looks stylish thanks to its open woven design.

2

Dex lounge chair

This lounge chair can be combined as part of a set, or, together with the ottoman, it can also be used perfectly on its own. Place it in your favourite spot in the garden as a delightful chair in which to relax and daydream in for hours with a good book.

3

Dex footstool

Designed specifically to rest your legs comfortably whilst enjoying the outdoors. The compact size makes the footstool easy to move around. Place it next to a lounge chair or use it as an extension of the two-seater sofa.

4

Dex dining chair

The Dex dining chair offers comfort and style during outdoor dining that offers modern materials and sleek lines. Whether you're dining with guests or simply relaxing during a meal, it's a must-have for any outdoor space.

5

Dex lounge chair

Whether you want to enjoy the sun or just read a good book, the Dex lounge chair is designed to help you completely relax. With the extra side cushions, you are always able to enjoy the best spot in the garden with complete comfort.

6

Dex dining table

With its contemporary look and charm, this table has been specially designed for outdoor living. The black retro-inspired frame design gives the table a unique character and fits perfectly in all outdoor spaces.

7

Dex coffee table

With a hardwood top, the Dex coffee table exudes a warm and natural atmosphere. Combine the table with the Dex side table and you'll have created a playful look in your garden.

8

Dex side table

The Dex side table, with its modern base, creates a stylish appearance that fits well in any outdoor environment. Due to its modest size, this table is the perfect side table for a terrace.

More outdoors

Extend your living room outdoors with the Dex lounge set. Create a stylish outdoor space which you can not only enjoy during the day, but also enjoy on romantic summer evenings. With this set, you can relax and lounge in comfort.

Flow collection

The Flow series is recognisable by its mix of beautiful materials and all with a natural look.

1

Flow lounge chair

Relax in style with our Flow lounge chair. The soft back cushions provide maximum comfort whilst you enjoy the outdoors. A perfect addition to your terrace, garden or balcony.

2

Flow three-seater

Enjoy your garden with our comfortable and stylish garden bench. With soft cushions and sturdy construction for optimal comfort. Combine this bench as a set with our Flow lounge chairs and tables, to add elegance to your garden.

3

Flow coffee table

The perfect addition to any modern outdoor space. The look of the concrete top gives the table its rugged appearance. This table is the right height for a well-deserved coffee moment in the open air.

4

Flow side table

The Flow side table is perfect to place next to the coffee table, so you have extra space to put drinks, magazines or snacks. This side table is a stylish addition to any garden.

5

Flow corner set

Effortlessly transform your terrace into a comfortable, inviting oasis during the spring and summer months. The durable wickerwork and concrete-look table tops complement the airy design.

6

Flow dining chair

This charming dining chair stands out thanks to its beautiful appearance and stylish design. It is comfortable due to the use of inviting cushions that are also easily combined. The combination with the Flow dining table completes the picture!

7

Flow dining table

Barbecuing, having a drink, or enjoying a leisurely dinner during warm summer evenings becomes even more joyful at the Flow dining table. With plenty of space for everyone to enjoy delicious dishes and each other's company.

More open

This Flow lounge set invites you to relax in style and comfort. Leave the world behind and enjoy each other's company whilst sinking into the soft cushions and feeling the warm sun on your skin. This is love, this is peace, this is home.

Handmade quality

More
for
you

When you're relaxing, it's nice to know that your garden furniture is of good quality, so you can enjoy it for a longer period of time. By choosing craftsmanship and quality, you are therefore trusting the expert makers of Mondial Living.

Mondial Living focuses on the development and production of high-quality garden furniture with a stylish and sustainable design. We have great passion for traditional craftsmanship, which is reflected in our entire collection. At Mondial Living, all garden furniture is manufactured with the utmost care and attention, so that they last for years and are an asset to your garden.

Every step in the production process, from selecting the best materials to finishing every detail, is carried out by experienced professionals who have honed their craft. This results in a beautiful collection of garden furniture that not only looks stylish, but also exudes durability. In addition, Mondial Living stands for quality and customer satisfaction. This is ensured by monitoring the process during production and carrying out strict quality controls. This allows us to

guarantee that each product meets the highest standards and meets the expectations of our customers. Artisan hand-woven wicker furniture is a distinctive part of the Mondial Living collection. These furniture pieces are woven from plastic wicker threads using an old technique of weaving natural materials, such as rattan. The process of hand-woven wicker requires a lot of patience and skill from the craftsman, resulting in unique and one-of-a-kind pieces of furniture.

All products are carefully crafted with attention to detail and to meet the highest of quality standards. Moreover, they provide a unique and refined appearance in any garden, allowing you to enjoy comfort and relaxation in your own backyard. Choose Mondial Living and experience the difference of genuine artisanal garden furniture.

Sustainability

It starts
with respect
for people,
nature and
materials.

Sustainability and quality go hand in hand at Mondial Living. Our outdoor furniture collection reflects these values and enables you to contribute to a better world.

Our goal is to produce products that are not only beautiful, but also have a long lifespan. Therefore, we carefully check whether the materials used are of high quality and whether the production process is carried out responsibly. Our materials are carefully selected to ensure maximum durability and all with a stylish appearance.

With our use of natural materials, including teak wood, you can be assured of a beautiful appearance and responsibly processed materials. Teak wood, for example, is a durable and strong material that is known for its resistance to weather conditions and its long lifespan. Furthermore, we ensure that the processed wood components come from responsibly harvested wood production. This means that we ensure that teak wood is grown and harvested in a sustainable way, without harming the natural environment and ecosystem.

Our production partner is affiliated with SMETA and has integrated the program into its production process of outdoor furniture. SMETA enables Mondial Living to take human rights, environmental protection and corporate social responsibility seriously.

With Mondial Living furniture in your garden, you will not only sit comfortably, but also with care. Our focus on sustainability and quality ensures that your enjoyment of the furniture will be there for years to come, ensuring everyone can be proud of it.

In short, the hand-woven furniture of Mondial Living is not only stylish, but also responsible and sustainable. Create your own sustainable oasis in your garden with Mondial Living furniture!

SMETA stands for Sedex Members Ethical Trade Audit and is a globally recognised certification program that helps businesses implement and maintain responsible, ethical, and sustainable production practices. The program includes a comprehensive audit of labour standards, health and safety, environmental impact, and business integrity. SMETA is managed by Sedex, a non-profit organisation dedicated to improving the sustainability of global supply chains.

MONDIAL
FOUNDATION

EDUCATION CENTER FOR HANDICAPPED CHILDREN

The “Education Center for Handicapped Children” has been in existence since 1989. A fantastic team, managed by Ms. Loi, supports approximately 90 children with physical and mental disabilities there. Ms. Loi is a dedicated individual who has made significant contributions towards the education of handicapped children. Her unwavering commitment and passion towards this cause have earned her great respect and admiration from her colleagues and students alike.

Can you tell us more about the history of the School for Handicapped Children in Saigon?

In 1989, a woman with her handicapped baby came to the Pagoda and asked for help taking care of the baby so she could go to work and earn money for her family. This situation made the Monk feel sad and he deeply understood the challenges families faced with handicapped children. His good heart compelled him to do something to help such families. As a result, he established The Education Centre for Handicapped Children in Ho Chi Minh City.

When the school for handicapped children opened, many families sent their children to the school, which provided everything free of charge. The Monk called for help from Buddhists in the pagoda as well as external support. Since 1989, the school has been receiving an increasing number of handicapped children.

How does the school address the challenges associated with teaching children with disabilities?

Depending on their age, children receive education at their level, and there are regular events such as theatrical performances. They also make crafts that stimulate their fine motor skills and sell them.

How does the school collaborate with other organizations and communities to achieve its mission?

There is no support from the government. The government charged a certain rental fee per month, but now it's increased threefold. Additionally, the school does not charge fees to families; all costs are free. However, every month the school must pay for certain costs such as teachers' salaries, electricity, rent, and daily food for kids. All of these costs depend on supporters. We are very happy that the Mondial Foundation has been supporting us for several years now. We partner with local businesses and community organizations to provide resources and support for our students.

How does the Mondial Foundation support the School for Handicapped Children in Saigon and how has the collaboration helped in achieving its goals?

With support from Mondial, the school has become more beautiful and provided better conditions for living and studying, bringing many positive changes to the children and school. However, the support from the Mondial Foundation helps with the cost of the school's activities, but does not cover the monthly cost of the school.

How do you see the future of the School for Handicapped Children in Saigon and what plans do you have for further developing and improving the school?

Since the school had to close during the Covid period because the children are in the high-risk group, our first goal is to get all children back in school. With the help of the Mondial Foundation and other supporters, we are trying to cover all the monthly costs. Hopefully we will receive more support from other organizations so we can buy new materials for the kids to use during classes. We aim to assist even more families and provide tailored education that meets the unique needs of each child.

Want to know more?

The Mondial Foundation was founded in 2006 by owner Bart Jongman of Mondial Living. The foundation offers financial support, but also shares knowledge and advice. Where we provide financial resources, we only do so under clear conditions. We closely monitor developments within each project. In this way we help each other appropriately and sustainably. If our initiative appeals to you, let us know. As a friend and/or donor you are most welcome at the Mondial Foundation.
