

AG340

DEHUMIDIFIER

Low Energy consumption

Uses only 60W with high speed brushless turbo blades and a DC motor. Comes with an auto shut off function to prevent overflows.

Water Tank Capacity

Water tank capacity of 2.5 liter. Absorb approximately 1000ml daily at 86° relative humidity. The color indicator will turn red once the water tank is full.

Odor Removal

Suitable for use in small enclosures to remove the odor caused by dampness in rooms, cupboards, walk in wardrobe, kitchen, shoe racks, under the sink etc.

Compact, Light Weight & Sleep Mode

The compact dimension of 205x158 x355mm makes it light and portable for use in home or office. Sleep mode enables the operation to be silent for use at night.

Rainbow Mood Light

7 Comfortable rainbow soothing lights to select from. Lights can be on rotation or can be fixed at a specific color.

Technical Specifications

Model Name	: AG340
Dehumidification Capacity	: 1000ml/D(86F°, RH80%)
Water Tank Volume	: 2,5L
Rated Power	: 60W
Rated Voltage	: AC 100-240V, 50/60Hz
Product Size	: 205 x 158 x 355mm
Package Size	: 260 x 180 x 390mm
N.W/G.W	: 2,6KG/2,9KG
