

# THE NAME

TRUE TRANSMISSION TECHNOLOGY \* HYBRID DESIGN \* HALOGEEN FREE

The Name is a very high quality affordable cable that offers all the features and high quality you expect from Van den Hul. The Name's 75 ohm impedance makes it an ideal starter cable which can be used in many different applications. Available with RCA connectors only.

The Name is available as:

- standard: stereo pair box packed with RCA (unbalanced) connectors
- single packed "antenna" version with television style coaxial plugs (male and female, metal screened, right angled (elbow type), high quality Hirschmann brand)

## FEATURES

A double shielded solid core with pure silver coated OFC.

Provides your signals excellent protection against unwanted noise and interference from the outside world's radio frequency and other electromagnetic disturbances.

Last but not least, The Name's dense silver coated conductors, as well as its rugged and hardwearing Hulliflex® jacket provide an optimal protection against chemical (corrosive) attack from the outside world and ensure a very long lifespan.
