Teams of 2 or more players compete in this hilarious party game. One team member describes as many of the 5 concepts as possible on a card within 30 seconds, while the other team members guess. But there is a twist, the fewer words are used to describe something, the more points can be scored. The question is, of course, whether it will be guessed ... The 1080 concepts are very diverse; famous people, places, titles, objects and other daily words. Under the time pressure you will use the strangest words. It will be fun. Enjoy playing.
