When the disk reader is working, please be noted:

1. Some USB ports may don't have enough power to support the external drive, it's better to use the external power adapter to increase the power so that the external drive can work more stably.
2. Please install a VLC Media Player or other player software.
3. Make sure your computer has a driver before using the external drive. If the computer is missing a driver, please contact our after-sales team to get the driver.
