Thank you for purchasing our product. Please read the operating instructions carefully before using the product for the first time. If you give the product to a third party, this manual must be handed over with it. Keep the instruction manual for future reference. The drawings in this manual may not match the physical objects. Please refer to the physical objects.

1. Introduction and safety instructions

1.1 Introduction

- This instruction manual is intended to familiarise you with the contents and use of the product. To use the product safely and correctly, please read the instruction manual **before** you start.
- Check the product for shipping damage. Immediately report any damage to the carrier that delivered the product.

1.2 Explanation of the symbols

Warning! Read the safety instructions carefully. Failure to follow the safety precautions could result in serious injury or damage. Keep the operating instructions in a safe place.

Be careful when using this product.

1.3 General safety instructions

- Your safety is most important to us. Therefore, please ensure that you read the instruction manual **before** installing and using the product. If you are unsure about any information in this manual, please contact the dealer from whom you purchased the product.
- Read all safety and usage instructions. Failure to follow the safety information and instructions may result in injury. Keep all safety and use instructions for future reference.
- **DO NOT** use the product if you have not yet read the operating instructions.
- Make sure you have read the instruction manual thoroughly and understand the contents before starting the installation.
- -The instructions are in the interest of your safety.
- **Danger of suffocation!** Do not leave the packaging material lying around carelessly. It could become a dangerous toy for children. Store packaging parts (foils, plastic bags, polystyrene, etc.) only in places that are not accessible to children, especially infants! Since packaging parts often harbour unrecognisable dangers (e.g. choking hazard).
- Changes in the interest of technical progress may be made by the manufacturer without prior notice and may not yet be reflected in the operating instructions.
- Check the toolbox for completeness and function before putting it into operation!
- Never put a defective or non-functioning toolbox into operation! Contact the manufacturer or have the tool checked by a qualified specialist.
- Always work with caution and the necessary care!
- Never use excessive force!

1.4 Specific safety instructions

- - Never use the tool box as a climbing aid or climb on it!
- - Never exceed the maximum load of the tool box.
- - Keep children and uninvolved third parties away from the working area.
- - Always remove all packing material from the unit before using it.
- - Never work when you are tired or under the influence of drugs, medication or alcohol.

2. Use

2.1 Intended Use

- The tool box is suitable for storing tools and the like.

2.2 Improper Use

- The tool box is not suitable for transporting heavy objects or as a climbing aid!
- Unauthorised structural changes such as additions or conversions to the unit are prohibited.
- Any operation other than that described in these instructions is not permitted. Failure to comply with these instructions will invalidate any liability and warranty claims.

5. Environmentally friendly disposal

5.1 Disposal and packaging

- The packaging of your unit consists of materials that are necessary to guarantee effective protection during transport. These materials are fully recyclable and therefore reduce the environmental impact. Dispose of the packaging in a bin for recyclable materials.

5.2 Disposal of old equipment

- Old appliances must be disposed of in accordance with the guidelines and regulations of the local waste disposal authority. Check with your local administration for the address of the nearest recycling centre and deliver your appliance there.
