

ENGLISH
IMPORTANT

Always switch off the power before starting the installation. If you are not authorized to perform the installation, leave this to a qualified electrician.

DEUTSCH
WICHTIG!

Bevor Sie mit der Installation beginnen, schalten Sie den Strom immer aus. Wenn Sie nicht befugt sind, um die Installation zu tätigen, lassen Sie dies von einem befugten Elektriker ausführen.

FRANÇAIS
ATTENTION !

Coupez toujours l'alimentation avant de commencer l'installation. Si vous n'êtes pas qualifié pour effectuer l'installation, vous devez faire appel à un électricien professionnel.

NEDERLANDS
BELANGRIJK!

Voordat u begint met de installatie schakel de stroom altijd uit. Wanneer u niet bevoegd bent om de installatie uit te voeren laat dit door een bevoegde elektricien uitvoeren.

1. Wear gloves and use a voltage screwdriver when installing the lamp.
2. Do not mount the lamp to a weak or damp ceiling.
3. Do not turn the power back on until everything is secure and a lightbulb is installed or changed.

ESPAÑOL
IMPORTANTE

Apague siempre la red de alimentación antes de iniciar el proceso de instalación. Si no está autorizado para realizar la instalación, no lo haga, Contacte con un electricista cualificado.

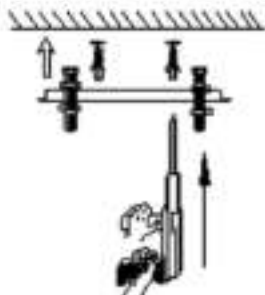

ITALIANO
IMPORTANTE!

Spegnere sempre l'alimentazione prima di cominciare con l'installazione. Se non si è autorizzati a svolgere l'installazione lasciare l'operazione a un elettricista qualificato.
