The new line of Clickins offers a whole new dimension of contemporary building. Children will effortlessly learn through creative play and subtraction.

Label the cubes appropriately letting your creativity flow. The new line of Clickins offers a whole new dimension of contemporary building. Children will effortlessly learn through creative play and subtraction.

Play is the primary mode of learning for children. Young children love discovering mathematical concepts in the world around them. When a child has the opportunity to take flat objects and successfully construct 3D projects

than them, the sense of discovery is very exciting and empowering.

This toy offers hours and hours of fun - children can build various projects and let their imagination go wild with ideas.

Use this as a stand-alone set to create castles, cubes, houses and more or as an add-on to another set for more complex designs and hours of educational fun.
