

Prior to start any handling operation, make sure that the appliance is cooled down!
Use only a wet rag for cleaning surface of the appliance, do not use any cleansers or hard things which could damage the surface!

Never clean the appliance under running water, never flush it and never immerse the appliance into water!

Limescale removal

Impurities from water build up during normal use. These sediments can be removed perfectly from the kettle using preparations designed for removing limescale (observe the producer's instructions) or using the following procedure:

1. Pour 0.5 litre of vinegar into the kettle and top up with water. Leave the solution in the kettle overnight. Do not boil!
2. Pour out the contents, and clean the remaining sediment using a wet cloth. Fill the kettle with clean water, boil it and pour it out again. Repeat the procedure once more. The kettle is then ready for continuing operation.

Note: Remove the deposits regularly, once a week as a rule – periodicity depends on water hardness and on frequency of kettle use. The deposits reduce efficiency and service life of the appliance materially.

REPAIR & MAINTENANCE

Any extensive maintenance or repair that requires access to the inner parts of the product must be performed by an expert service centre.

ENVIRONMENTAL PROTECTION

- Packaging materials and obsolete appliances should be recycled.
- The transport box may be disposed of as sorted waste.
- Polyethylene bags shall be handed over for recycling.

Appliance recycling at the end of its service life:

A symbol on the product or its packaging indicates that this product should not go into household waste. It must be taken to the collection point of an electric and electronic equipment recycling facility. By making sure this product is disposed of properly, you will help prevent the negative effects on the environment and human health that would otherwise result from inappropriate disposal of this product. You can learn more about recycling this product from your local authorities, a household waste disposal service or in the shop where you bought this product.

This product meets all the basic EU regulation requirements that relate to it.

Changes to the text, design and technical specifications may occur without prior notice and we reserve the right to make these changes.
