

## Precautions

- Do not use this product with broken glass.
- If there is cement and other stagnant on the glass, please remove it before using this product.
- Pay attention to first check whether the safety rope is fastened, and then put the safety rope pull ring on the non-operating finger, and then operate the cleaner.
- Make sure that the cleaner does not absorb impurities during use, otherwise it will easily damage the glass surface.
- For very dirty glass, you should pay attention to cleaning all parts after one wipe, so as to facilitate the second wipe.
- The magnetic force of this product is extremely strong, and it may be dangerous if you used improperly. Before using, please read the instructions and prohibit children from touching this product. Since the product contains magnetism, so keep away from watches, TVs, magnetic cards and other items.
