

## Cal-Mag

Cal-Mag contains calcium and magnesium which support skeletal and muscle function. Vitamins, minerals and trace elements are important for several functions in the body. The body itself does not produce all the trace elements, these must therefore be added via the diet.

Our Cal-Mag contains ingredients that help maintain a strong skeleton and strong teeth. The skeleton is renewed throughout life, so it is important that we regularly supply the body with calcium to maintain a normal skeleton. Our unique Cal-Mag formula is enriched with calcium, magnesium, vitamin C, vitamin D and zink to support maintenance of normal teeth, bones and nervous system.

Cal-Mag 500 ml provides a 33 day supply that covers a daily intake of natural nutrients for healthy muscles and skeleton, all in only 15 ml.

## EVIDENCE BASED RESULTS

Swedish Nutra's products are laboratory tested and backed up by evidence in nutritional science. All ingredients are hand-picked and in line with EU standards, guaranteeing a high-quality formula. Swedish Nutra's Cal-Mag is designed to support:

Muscle function  
Skeleton function  
Teeth  
Bones  
Nervous system

## QUALITY

Swedish Nutra is obsessed with quality. All our products are manufactured, packed and tested in Sweden according to **Good Manufacturing Practice (GMP)**, providing quality assurance in order to ensure that all manufactured products are consistently produced and controlled according to EU quality standards.

Swedish Nutra is approved by the Swedish Health Authority (Livsmedelsverket).

Biotin supplement is highly attractive because of its unique and powerful/strong mix/formula.
