

GB INTRODUCTION
The meter has a three phase four wire with RS485 din rail electronic meter. This meter complies with the standard EN50470-1/3. It can measure the consumption of active/reactive energy. This meter has many advantages such as good reliability, small volume, light weight and easy installation. The meter is intended to be installed in a Mechanical Environment (MT), with Shock and Vibrations of low significance. It is per 2014/32/EU Directive. The meter is intended to be installed in Electromagnetic Environment (EZ) as per 2014/32/EU Directive.

FEATURES AND TECHNICAL PARAMETERS

- 1 Features
- 11 Measurement function
 - It has three phase active/reactive energy and positive and negative measurement, four tariff(optional).
 - It can be set 3 measurement modes according to the synthesis code.
 - Maximum demand calculation.
 - Half Day Tariff or Weekend Tariff Setting(optional).
- 12 Communication
 - It supports IRnear infrared and RS485 communication(optional). IR complies with EN62056(IEC107) protocol, and RS485 communication use the MODBUS protocol.
 - DTSS3F-1: IR communication
 - DTSS3F-2: IR communication, RS485 MODBUS
 - DTSS3F-3: IR communication, RS485 MODBUS, Multi-Tariff
- 13 Display
 - total/three phase apparent power, total/three phase power factor, frequency, pulse output, communication address, and so on details please see the display instruction.
- 14 Button
 - The meter has two buttons, it can be displayed all the contents by pressing the buttons. Meanwhile, by pressing the buttons, the meter can be set LCD scroll display time.
 - It can be set the automatic display contents through IR.
- 15 Pulse output
 - Set 1000imp/kWh,1000imp/kVarh
 - Voltage: 3~230VAC
 - Current: 0.25~5(A)0.25~5(32)A,0.25~5(40)A,0.25~5(45)A,0.25~5(50)A,
 - Accuracy class: B
 - Standard: EN50470-1/3
 - Frequency: 50Hz
 - Impulse constant: 1000imp/kWh,1000imp/kVarh
 - Impulse constant: 1000imp/kWh,1000imp/kVarh
 - Starting current: 0.004A(b)
 - Temperature range: -20~70°C(NonCondensing)
 - Average humidity value of year: 85%

DESCRIPTION

- A LCD display
- B Forward page button
- C Reverse page button
- D Near infrared communication
- E Reactive pulse LED
- F Active pulse LED

DISPLAY LCD display content

Some description to the signs

TAB Present tariff indication

TAB content indicate, it can be shown T1/T2/T3/T4, L1/L2/L3

kWh/kWh/kWh unit display, it can show kWh, kwh, kWh, V, A and kVA

Press the page button, and it will shift to another main page.

LCD Display Content

Page	Content	Unit	LCD sign	Format
1	DATE		XX-XX-XX	
2	TIME		XXXXXX	
3	Total Active Energy	kWh	6+2 000000.00
