- Water must not be used to wash the clipper, keep away from the bathroom while operating.

- Only use a little wet oil or beard oil just use to clean the product.
- Never charge the product above 100°C or use at below 0°C environment.

- *High heating during the operating or charging is normal case.
- *After the battery life expires, take off and throw the battery in safe manner into the designated recycling. Never dump it randomly.

Clutter Cleaning and Maintenance

Face Wash Cleaning

Clean up the blade with cleaning brush.

Face Wash Maintenance

Apply a little maintenance oil after the use of the clipper to the metal parts.

Blade Removal & Installation

Blade Removal

- * Such as a comb with the index color head under part, remove the cutter head.

- * To prevent the blade from falling, use another hand to hold it.

Blade Installation

- * Tighten the screw with a screwdriver to ensure the head of the blade. Without it will.

Warn tip: do not disassemble the blade head without any oil.
