GAME RULES

The goal of this game is to score as many points as you can by sliding all 12 discs into the three goals.

The players take turns sliding discs from the front end of the board towards the three goals. Each turn consists of three attempts to land all 12 discs in the goals.

In the first attempt, the player slides all 12 discs one at a time towards the goals. For the second attempt, the player collects all the discs that did not land in a goal and slides those discs again. For the third attempt, the player again collects all the discs outside the goals and slides those discs again.

The player's turn ends once all 12 discs are in the goals or when the player has completed his/her third attempt.

When a player's disc lands inside a goal, that player receives one point. If the animal face on the disc matches the animal face on the goal, then the player receives an extra point.

GAME TIPS

Try using the sides of the board game to slide from a different angle.
Practice a lot, and you will be a sliding master!
