-  Magnetická bezdrátová nabíjačka - Type-C
-  Platformă magnetică de încărcare fără fir - TypeC

With this super-slim wireless charging pad, you can charge your mobile devices conveniently without connecting cables. The built-in magnetic ring helps to keep the charging pad in the correct position during charging (if you want to charge a device that is compatible with the magnetic ring). In a dark room, connecting the charging cable will no longer be a problem. The advantage is that you can easily answer calls while charging, just lift your phone from the charging stand or even with the charging stick. It can be an ideal choice for home, office, bedroom. A prerequisite is that your mobile device must have a wireless charging function at the factory!
