

To the owner of Eaglegreek Store,

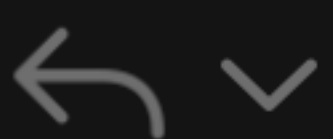

Your Shopify Store Account [7571da-2.myshopify.com](#) may be using an **unlicensed** version of a purchasable theme by theme developer Archetype. Action is required to avoid any potential disruption to your store.

Shopify's Terms of Service (Section 9) requires a licensed version of any purchasable theme from the Shopify Theme Store. Only themes purchased from the Shopify Theme Store carry a valid license and each store requires a separate purchased license.

Action required

To avoid any disruption to your store, please take one of the following actions:

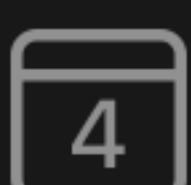

1. Purchase a valid version of the theme from the Shopify Theme Store. A new purchase of your current theme will assign a valid license to your store account. You can continue using your current, live version of the theme that is already setup and customized to your needs.
