

100-240V, 50-60Hz,
0.3-0.1A

ON

A power switch with a white 'O' and a black '-' symbol is located on the left. To its right, technical specifications are printed in white: '100-240V, 50-60Hz, 0.3-0.1A'. A black power cord is plugged into the switch. In the top right corner, there are two circular ports, one white and one orange, and a small screw.

CE    UK CA  DE93980108 R-NZ E4351
