PADDED INSOLE

DESCRIPTION

Fully waterproof and featuring non-metallic construction including toe cap and midsole, the Emergency Service hiker offers all-round protection whilst being lightweight, durable and comfortable to wear. A side zip enables easy put-on and removal and Blackrock's HSL GRIP 4 rated HexaGrip sole gives market-leading slip resistance to keep you on your feet when it matters most, with EaziStep padded insole for maximum comfort when on your feet for long periods.

SIZES

UK 6-12

STANDARDS

EN20345 S3
WR HRO SRC

KEY FEATURES

- Lightweight metal-free composite toe cap and midsole
- Waterproof leather upper
- Side zip for easy put on and removal
- HexaGrip ultra non-slip sole
- 300°C heat resistant, anti-static and fuel oil resistant PU/rubber sole
- EaziStep padded and breathable insole for comfort

 **HEXAGRIP**

Blackrock's HexaGrip technology features a hexagonal sole pattern that gives significantly increased grip, achieving a 4 star rating in the UK HSE GRIP scheme, far exceeding the international SRC slip resistance standard.

 **EAZISTEP**

Blackrock's EaziStep insole is made from lightweight PU/mesh that gives all day comfort and relieves tension in areas vulnerable to stress such as the heel area and ball of the foot.

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
