Our mission

We believe in a world where electronic products help the environment and benefit the people who make them.

With our innovative durable design made from ethically sourced and recycled materials, we've partnered with Fairtrade and PUR Project to make the fairest, most sustainable cable we can.

Designed by Syllucid in Amsterdam and responsibly made in China.
Packaging made from sustainable sources.

All listed brand names used are registered trademarks of their respective companies.
Apple and Lightning are trademark of Apple Inc while USB-C is trademark of USB implementers Forum.
