

Oxford Beast Anchor

More Information

Options & Sizing

Description:

Some say that size doesn't matter. When it comes to locks, chains and anchors it matters! The Oxford BEAST is so big it comes with a health warning on the box: **WARNING - HEAVY!**

With the Beast Lock and Chain being so big and strong you need something beastly to anchor it down. The Beast Anchor is an extra strong bolt-down anchor. Double layered in strength and with a hardened steel construction, it really does live up to its name. Weighing in at a whopping 4kg it can be fitted to concrete floors and or concrete/brick walls.

The Beast lock, chain and anchor has achieved a Sold Secure DIAMOND rating, ensuring it is able to withstand forceful and sustained attacks. To be awarded a DIAMOND is no small feat. The Beast has passed attack tests from a huge range of tools, commonly used by thieves including, pliers bolt croppers, drill, and most impressively a 90 second angle grinder attack.
