SPECIFICATION FOR 2 IN 1 CHARGING FANS

Product structure:

1.Front protective net
2.Fan blade
3.LED lamp
4.hook
5.DC5V OUTPUT
6.type-c charging interface
7.LED lighting switch
8.Power display
9.FAN SWITCH

Product Description:
1. The product adopts brushless motor, lightweight PC blade and super strong wind power.
2. the shell adopts modified environmental PP, strong pressure resistance, fall resistance, suitable for mobile use.
3. The product has strong functions and is independently controlled by fans and lighting. It can be used on the desktop or by hanging
4. Equipped with infrared remote control, the distance can be controlled within 5 meters.
5. built-in standard large capacity 18650 battery.

Method of application:
1. After unpacking the package, please make sure that the accessories are complete and the appearance of the product is good.
2. find 7 press key, gently press to open 1, 2, 3, you can enter three speed switch, then press to turn off the fan function.
3. Find 9 and press key. Gently press 1, 2 and 3 to switch the brightness of lighting into 3, and then press to turn off the lighting function.
4. When the fan stops working or the lighting stops working, the switch is in the stop state.
5. This product is equipped with USB(Type-C) charging line, charging operation indicator (25%, 50%, 75%, 100%). During charging, the indicator is running, indicating that it has not been fully charged, and after charging, four lights are on long.

Usage of remote control:
1. 1 The key is to turn off the fan function, 2 is to start the motor "Low Speed wind speed", 3 is for medium speed wind speed and 4 is for high speed wind speed.
2. 5 The button is to turn off the lighting function, and the 6 button is to start the lighting. "Low brightness"; 7 button is to light in the lighting; 8 button is to highlight the lighting.
3. 9 button means the timer fan works for 2 hours, 10 button means the timer fan works for 3 hours,and 11 button means the timer fan works for 5 hours when pressing 9,10,11, the battery indicator will flash once, indicating that the timing function has been started.

Basic parameter:

PRODUCT MODEL	X10
SPEED CONTROL	STEPLESS SPEED REGULATION
IPPUT VOLTAGE	5V-2A
INPUT CURRENT	200mah-1200mah
OUTPUT POWER	1W-6W
BATTERY MODEL	18650
LED POWER	0.5W-2W
PRODUCT SIZE	173mmx173mmx138mm
PRODUCT WEIGHT	450G
SERVICE TIME	HING SPEED 6 HOURS ,LOW SPEED 25 HOURS
PRODUCT ACCESSORIES	CHARGING WIRE AND INSTRUCTION

Matters need attention:
1. Please recharge when the fan stop or LED lighting not working, please charge once in three month,When the product not use, increases product life time.
2. Do not put your finger in to the net when the fan working,Avoid bodily harms(less three years of age, under adult supervision).
3. Do not open the front and back cover of the fan and refit this product.
4. Do not use this product near fire and wet place.
5. Please use the battery charging wire with product.
