POWERLOCK®

POWERLOCK® PL-700
Padlock

Product description
Extra strong stainless steel padlock
Maximum security stainless steel padlock, key can be removed only in locked position
Removable 50mm shackle
Meeting BS EN12320 Grade 5
Full stainless steel

The PL-700 is highly durable, sustaining tests such as acetic acid salt-spray, ensuring that it can withstand the elements when used in exposed locations. The PL-700 has superior physical strength which ensures maximum resistance against attacks. Further security is provided by hardened stainless steel balls locking the shackle on both sides. The standard finish supplied is stylish matte. The padlock body is manufactured from case-hardened stainless steel and measures 70mm wide. The shackle is manufactured from case-hardened boron steel and is 14mm in diameter. Includes the PowerLock Pro cylinder mechanism, containing 12 discs, stainless steel and rekeyable.
Key is removable in locked position only.
Comes with 2 stainless steel keys and a 2 year warranty.

Overview of Advantages
- Durable stainless steel construction
- CEN 5 Grade
- Removable shackle
- Extra long shackle
- Suitable for maximum security applications, like shipping containers, railway wagons, trucks, warehouses etc.
