- Quick Start Guide

Easily deploy and manage your UniFi Enterprise System using the included UniFi Network software. Real-time status, automatic UniFi device detection, DPI analytics, predictive coverage, hotspot setup, and advanced security options are all seamlessly integrated in the intuitive, graphical UI. With the UniFi Controller, you can manage and provision thousands of UniFi devices over multiple sites. Scale up your network as needed without any ongoing licensing fees or costly hardware controllers.

We recommend using a UniFi PoE Switch to power your access points.
Available in 8, 16, 24, and 48 port versions.
