Motion Alert

## MOTION ALERT (only available in model - iTrack motion)

iTrack motion hides inside the motion sensor that alerts you to unwanted movement. You will get the notifications into the application immediately and iTrack motion will set off a loud alarm.

You can also download the movement record when you reconnect.

# MULTI RINGTONE DOWNLOAD

iTrack comes with 5 custom ringtones that you can set up instead of the default one.

## SIRI/ONE-TOUCH TO FIND THINGS

Use Siri shortcut to ring the iTrack, or tap the "ring" button in the App, the iTrack attached to your item will start ring. You can easily to find things that your often misplace or lose like keys, wallet, bag, backpack, kids' toys, TV controller or umbrellas.

## FIND YOUR PHONE

If you can't find your lost phone, you can long press or double click the iTrack tag and if you're within the Bluetooth connection range, your phone will start ringing even it's in silent mode.

## NETWORK SEARCH

If you lost your item, our users in iTrack community may help you to find the lost item.  
The more users pass by, the easier to find.

## OUT OF RANGE NOTIFICATION

When enabled, the phone or/and iTrack tag will make sound alarm to let you know you've left thing behind, so that can go back and take your things with you.

The App and iTrack tag will also auto-reconnect when they are back to the range.

## LAST SEEN LOCATION

If you cannot find your missing keys, wallet or other items, you can still check the last known location in the built-in map.

## SELFIE

The iTrack tag can also be used as a wireless selfie stick and it's perfect for taking group photos or capturing the breathtaking scenery behind you - it will work as a remote camera shutter for as long as the Bluetooth connection with your phone is active.

## SLEEP MODE & TRUSTED WIFI AREA

You can set the quiet period or WiFi zones, so the tag and phone will not make sound alert every time you move far away from your keys or wallet.

## IOS & ANDROID COMPATIBLE

Come with a handy App, easy to use.

The range is up to 80 meters (240 feet) --The range will be based on the phone brand/model and your surroundings.

## STANDARD & REPLACEABLE BATTERY

The iTrack tag uses standard CR2032 or CR2016 battery. It's a common battery and easy to replace.

## CLOUD SYNC AND SECURITY

Support cloud sync, you can sign in with different phones with same iTrack list.  
End to end encrypted, protect data.

## MULTI LANGUAGE SUPPORT

The iTrackEasy App is in English, Deutsch, French, Italian, Russian, Czech. We can add more languages if needed.
