

Front cover and rear cover

This laser light can create best atmosphere for different environment, it is not for illumination. At night or some dark places, it will show perfect atmosphere to cover around 50 square meters room.

**STAGE ENTERTAINMENT,
IS PLAYING FROM A LIGHT.**

Remote Control Function

	Power switch		UV LED on/off only
	Motor stop		Red LED on/off only
	Stroke mode		Green LED on/off only
	Automatic stop 1, red and green laser light if output mode led light is purple blue		Blue LED on/off only
	Automatic stop 2, LED output purple color when laser light is purple red and green		Red and Blue color LED only
	Automatic stop 3, LED output red and blue when laser light is purple red and green		Red and Green color LED only
	Stroke color change 1, stroke color purple when laser light is purple red and green mode, stroke color is purple blue		Green and Blue color LED only
	Stroke color change 2, the stroke color blue when laser light is purple red and green mode, stroke color is purple blue		LED color change automatically, stroke the stroke color is purple blue
	Stroke color change 3, the stroke color red when laser light is purple red and green mode, stroke color is purple blue		Stroke 100% strobe (100% LED)
	Stroke color change 4, the stroke color green when laser light is purple red and green mode, stroke color is purple blue		Stroke 50% strobe (50% LED)
	Stroke color change 5, the stroke color yellow when laser light is purple red and green mode, stroke color is purple blue		Stroke 25% strobe (25% LED)
	Stroke color change 6, the stroke color orange when laser light is purple red and green mode, stroke color is purple blue		Stroke 12.5% strobe (12.5% LED)
	Stroke color change 7, the stroke color red when laser light is purple red and green mode, stroke color is purple blue		Stroke 6.25% strobe (6.25% LED)
	Stroke color change 8, the stroke color purple when laser light is purple red and green mode, stroke color is purple blue		Stroke 3.125% strobe (3.125% LED)
	Stroke color change 9, the stroke color blue when laser light is purple red and green mode, stroke color is purple blue		Stroke 1.5625% strobe (1.5625% LED)

Product Parameter

Laser diode: Green laser diode 532nm*2, Red laser diode 650nm*2
LED diode: RGB 3in1 + UV Led
Power supply: AC100-240V, 50/60Hz
Power adapter: DC5V, 2A
Working environment: 10-40°C indoor
Preheat time: 2-3 minutes
Control mode: Manual, Remote control
Play mode: Automatic, Sound active, Strobe
Cooling system: Fan
Scan system: Precise motor

Safety Notes

- This laser light is class 2B product, it is possible to expose the naked eyes directly to the laser, otherwise it may injure the eyes.
- It is possible to let the kids play this product. Before operate this laser light, every people must read the safety notes.
- This product is used indoor only, 175°C. Don't use it in liquid, overheat, dusty environment. It should be operating in a well aerating environment, keep far away from flammable materials or liquid.
- Please use the adaptor provided in the package. It need to replace the adaptor, please refer to the product parameter. If need to adjust the power cables, the external cable diameter must meet standard requirement, please don't adjust the cables too long, otherwise the adaptor will be broken easily.
