Use & Tips

① Width of product is adjustable.

Please feel free to stretch it to the desired width based on item size

(such as laptops, books, mobile phones, etc).

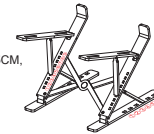

② Utilize level adjustment bars to set the perfect angle and height just for you.

Ergonomic design makes your working environment more comfortable and enjoyable.

Product Features

The improved double layer version (6+9 levels) allows you to increase laptop height by 5.5-15.5CM, better than the one layer that only gives you maximum 10CM.

Thin, light weight, foldable and easy to carry. No matter you're travelling or in a cafe, making every space a comfortable workplace.
