**English**

**Introduction**  
Congratulations on your purchase and welcome to Philips!  
To fully benefit from the support that Philips offers, register your product at [www.philips.com/welcome](http://www.philips.com/welcome).

**Important**  
Read this important information carefully before you use the appliance and save it for future reference.

**Danger**  
Never immerse the motor unit in water or any other liquid, nor rinse it under the tap. Use only a moist cloth to clean the motor unit.

**Warning**  
Thoroughly clean the parts that come into contact with food before you use the appliance for the first time.  
Check if the voltage indicated on the appliance corresponds to the local mains voltage before you connect the appliance.  
If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.  
Do not use the appliance if the plug, the mains cord or other parts are damaged.  
Never use the blender jar or accessories to switch the appliance on and off.

**Overheat protection**  
The appliance is equipped with overheat protection. If the appliance overheats, it switches off automatically (which might occur during heavy processing jobs) if the appliance is not used according to the instructions in the user manual. If this happens, first switch off and unplug the appliance and let it cool down to room temperature. Then check if the quantity of ingredients you are processing does not exceed the quantity mentioned in the user manual or if something is blocking the blade unit. Then put the mains plug back into the power outlet and switch on the appliance again.

**Electromagnetic fields (EMF)**  
This Philips appliance complies with all standards regarding electromagnetic fields (EMF).
