DESCRIPTION

Tracer GAMEZONE Aligator Headset is a great proposition for any gamer looking for a set with good parameters and a competitive price. Interesting RGB backlight, durable metal headband and earcups made of breathable material make it a perfect companion for virtual adventures. The headset belongs to the popular GAMEZONE line, created especially for gamers who value the combination of the highest quality and advanced features of gaming devices.

- Earcups made of breathable material.
- LED backlight.
- Flexible microphone with LED backlight.
- Large 50 mm transducers.
- Metal headband.

Impressive LED backlight

Express yourself with colour. Colourful LED backlight on the earcups gives the Tracer GAMEZONE Aligator Headset a predatory gaming character. Your headset will always look unique and impressive.

Comfortable and padded earcups

Every fan of long hours of gaming marathons will appreciate the durable metal headset construction. Specially shaped earcups, trimmed with breathable material, guarantee comfort and convenience. Effective isolation of distracting sounds from the environment will allow you to focus on the ongoing duel or car race.

COOKIES

A flexible microphone with a backlit end has been equipped with background noise reduction technology so that nothing disturbs your conversations with your teammates. From now on your voice will always be extremely sharp, and every command settings any time. For more details, see our [PRIVACY POLICY \(/privacy-policy\)](#).

crystal clear.

Superb sound quality

Discover the amazing sound quality offered by the Tracer GAMEZONE Aligator. Large and efficient 50 mm diameter transducers ensure precise sound reproduction. Optimal tuning provides cleaner sound and a wealth of high and medium tones.

Compatible with many platforms

The popular 3.5mm mini-jack connector used in the Tracer headset ensures their versatility. Gamers using PC platforms, smartphones and other devices equipped with this socket will be able to take full advantage of the capabilities of the headset.
