

Instruction of Assembly

5 petals of CDX

1, open the box and take out all the components.

2, place all the components on a clean and flat table.

3, assemble the short threaded end of each tube to the petals

4, assemble the petals to the plate, pay attention to the positions

5, fasten the petals with the nuts

6, tight up the nuts with the wrench

7, assemble flat-headed screws to the hanger with nuts in, but don't lock up yet

8, put down the hanger, make sure the screws can go through the holes at the plate, then fasten the nuts to lock the positions of each screw

9, connect the wires of each petal to the collector

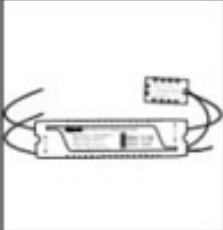

10, install the hanger with the sharp point screws to the ceiling

11, lift up the light and install it to the cross, the four flat-headed screws go through the plate, and fasten with the nuts as shown
