## General Requirements

- There is a presumption of conformity with respect to the requirements of the Personal Protective Equipment Regulation, when all applicable harmonized standards listed in the Official Journal of the EU are being applied.
- This EU Type-examination certificate is limited to the Personal Protective Equipment Regulation.
- The validity of this EU Type-examination certificate is limited to products, which are equal to the one(s) assessed for this EU Type-examination certificate (see Annex 3 of this certificate).
- When the manufacturer (or holder of this EU Type-examination) is placing the listed products on the European market or countries of the EEA, he is obliged to label the products with the prescribed CE logo and where applicable the Notified Body number of Telefication: 0560. The CE logo stands for conformity to all applicable EU harmonization legislation. Next to the CE Logo the manufacturer has to draw up and issue a Declaration of Conformity, declaring that the product(s) listed in the EU Type-examination certificate are in compliance with Regulation (EU) 2016/425 and any other applicable EU harmonization legislation.
- Each product shall be identified by means of type, batch and/or serial numbers and the name of the manufacturer and/or importer.
- If the equipment is to be modified, Telefication shall be notified immediately. Depending on the modifications, Telefication may have additional examinations carried out in consultation with the manufacturer.
- In case any referenced standard in the EU Type-examination certificate is withdrawn or superseded and the presumption of conformity with the essential health and safety requirements has ceased, investigation by Telefication is needed to determine the validity of this EU Type-examination certificate.
- For category III PPE, this certificate shall only be used in conjunction with one of the conformity assessment procedures referred to in point (c) of Article 19.
