

# Care and using instructions

## Battery Installation:

1. Unscrew the upper cap with anti-clockwise direction and remove it from the body.
2. Fill 6x "AAA" batteries into the battery compartment as per the picture showing.
3. Put the upper cap back to the body and turn it to fix with clockwise direction.

## Fill the pepper corns:

4. Unscrew the lower part of transparent chamber with clockwise direction and remove it from the body.
5. Fill the pepper corns or sea salt into the chamber. Don't over fill. keep the pepper corns or sea salt 80% full in the chamber as maximum limit.
6. Replace the chamber to the body and unscrew it to fix.

## Operating your pepper mill:

7. Turn it over your gravity pepper mill to start working
8. Adjust the top black adjuster to grind your pepper corns or sea salt with fine to coarse.

## Notes:

The machine may stuck during using, please adjust the top black adjuster with anti-clockwise direction.

Or change your batteries ( Alkaline battery recommended)

Always keep clean and avoid contacting with water.
