

Use skills and methods

1. Insert the USB plug into the USB socket, turn on the power, and use the switch. Turn off the switch when not in use and pull out the USB plug.
2. Place the mosquito killer on a table that is one meter high above the ground and use it better in an unmanned situation.
3. Before cleaning the storage box, unplug the power cord, and then remove the storage box, clean the debris in the storage box, and re-rotate and tighten.
4. When used at home, people can leave temporarily as long as the anti-mosquito time is scheduled for several hours before bedtime. When you have to go to bed, the mosquitoes have basically been removed and you can switch off or move to another room. If there are many indoor furniture, the time for mosquitoes to move out is different, and the time for killing mosquitoes may be longer.
5. When used in offices, places of business or in the field, the mosquito killer can be turned on in the evening. Turn off the lighting overnight to basically eliminate the mosquitoes. Keep the fan running until the mosquito is dehydrated to death.
6. Do not pull the plug immediately after catching the mosquito. Keep the fan running in the storage box, and use the light and odor to trap and breathe in and kill it.

Product features and effects

1. Using high-tech LED light source trapping, human breath trapping, air trapping and other comprehensive techniques, the trapping method is perfect and the trapping effect is good.
 2. Mosquito is sucked into a storage box by the air, then the mosquito is dehydrated to death, which is safe and quiet.
 3. Captured mosquito can release a chemical signal or pheromone to attract the opposite sex, so it can be continuously killed.
 4. Because of the ability to continuously capture the surrounding female mosquitoes, they can effectively interrupt the breeding cycle of mosquitoes in the surrounding area to achieve the effect of killing the swarms of mosquitoes.
5. sealed storage box can eliminate the secondary pollution caused by the splash of mosquito. The product is made of high-quality plastic, small and sturdy, easy to carry and use.
6. The product is made of high-quality plastic, small and sturdy, easy to carry and use.
7. The product is made of high-quality plastic, small and sturdy, easy to carry and use.

Product parameters

Product Name: Mosquito Killer	Product Number: BH-01	Rated Frequency: 50Hz
	Rated Power: 5w	Rated Voltage: 5v

warning!

1. Keep out of reach of children.
2. Keep away from flammable materials.
3. If the power cord is damaged, it must be repaired by the manufacturer or a qualified person.
