

STREX | DIGITAL PHOTO FRAME

STREX | DIGITAL PHOTO FRAME

Share your favorite moments

Send your best photos and videos directly to the Strex Digital Photo Frame. With the free Frameso APP available on both Android and IOS you can share unforgettable moments with friends and family anywhere in the world in just seconds. Prefer to manually add images? In that case you can always connect a USB stick or SD card to the photo frame.

Beautiful images

The 10.1-inch touchscreen has a high screen resolution which provides you with a sharp and clear image from every viewing angle. The improved screen makes the photos & videos even more beautiful! You can easily change the settings of the photo frame such as the rotation time, display mode and sleep mode using the touchscreen.

ROTATION

Place the photo frame horizontally or vertically using the magnetic frame stand. The frame also contains a screw hole allowing you to hang it on the wall. Photos and videos automatically rotate.

FAST & SIMPLE

The user-friendly interface makes the photo frame easy to use for all ages. In just a few steps you can complete the installation and upload the most beautiful photos and videos. Easier than ever. Available languages include Dutch and English.

ENOUGH SPACE FOR ALL YOUR MOMENTS

With the 16GB built-in storage, you can be sure that there is enough space for all your photos and videos. Still need more space? The photo frame supports an additional SD card. The images are securely encrypted and stored only on the photo frame.
