

increasing blood flow and allowing muscles to relax.

Slightly weighted edges and a button designed help keep this heat therapy wrap around your neck and ensure a custom fit for efficient heat transfer.

Features a convenient and easy-to-use corded hand control keypad to select and control functions; Easily select timer and heat levels or Power on/off.

Adjust timer levels to save energy and help prevent burns from overheating.

Please note that the heat function is manufactured according to international safety standards, which limits how fast the product can heat up.

Therefore, the heating-up may seem a bit slow, 7-10 minutes before you can feel the obvious.

Great For You Provides Safe Warming Comfort Zone.
