

Product Introduction

Name of device

Technical Parameters

Product Name:	portable electric iron
Product Model:	HX-6168
Rated Voltage:	100-240V
Rated Frequency:	50Hz
Rated Power:	88W

Operation and Maintenance

Product usage

1. Take out the product
2. Insert power plug of the product into corresponding socket to power on the product.
3. Turn on the power switch and the power indicator will light up and the product starts to work.
4. Place the product on the silicone mat when clothes are ironed so that high temperature will not burn the clothes.
5. After it is powered on for 50-60 seconds, you can choose the ironing method for clothes.
6. After the product is used, the product can not be collected until it is completely cooled.

Maintenance Method

- Wipe the bottom and other parts of the electric iron with a wet cloth.
- When iron screws status appears, do not use water to clean. After ironed, you can use a soft cloth with neutral detergent to wipe them.
- Any softness and stuck materials adhering to the bottom plate can be cleaned with a wet cloth or non-abrasive liquid cleaner.
- Please do not use iron wires or auxiliary fittings with metals to wipe the bottom plate. Plastic parts can be cleaned and wiped with a wet cloth.
- Close the power switch and wait until the electric iron fully cools down.
- Place the portable electric iron on the base until it cools down.
- Put the portable electric iron on the base for collection.

Environmental Protection List

List for Environmental Use Labels for Hazardous Substances

Name of parts	Hazardous substances					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
Power cord and internal wiring	X	0	0	0	0	0
Electrical components	X	0	X	X	0	0
Plating components	X	0	0	0	0	0
Plastic	X	0	0	0	0	0
Steel components	X	0	0	0	X	X
Internal parts	0	0	0	X	X	X
Screws and washers	0	0	0	X	0	0
Package and accessories	X	0	0	0	0	0

The iron is prepared according to regulation of SJ/T11364.

0: It means that the content of the hazardous substance is at least 100 times smaller of the part or lower the limit required by GB/T26572.

X: It means that the content of the hazardous substance is at least 100 times smaller of the part or lower the limit required by GB/T26572.

Note: Some parts marked with "0" in the above table including accessories including the package. Due to the limitation of the current technical level of the industry, it cannot be removed or reduced completely.

The product can be normally used for 10 years if it is used according to this manual. During the environmental protection usage period, it can be safely used. It will then enter the environmental recycling system after it exceeds the protection use period.

Special Statement:

All contents of this manual have been carefully checked. Product technology or software upgrade will be included in the user manual of the manual. Appearance, color and performance of the product changed shall be based on the user manual.
