## **SAR Information:**

This device has been tested and meets FCC Specific Absorption Rate (SAR) guidelines under typical operation. Keep this device at least 10mm away from your body and do not utilize with belt-clips and holsters that have metallic components in the assembly, to ensure SAR levels remain at or below the as-tested levels.

**Viewing the E-label:** To view the regulatory information on this device, do the following:

1. From the Home screen, swipe up > Settings .
2. On the Settings screen, tap Settings > About phone > Regulatory information

## **FCC compliance statement:**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: [1] this device may not cause harmful interference, and [2] this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance of this device voids the user's authority to operate this device.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
