3.2" Digital Wireless Video Baby Monitor
http://www.hellobaby.net.cn

Keep the small parts away from children

Thank you for purchasing the HelloBaby baby monitor. HelloBaby is the best device to monitor your baby every time. Our intention is to take off stress from you so that you can concentrate on your work while you monitor your sleeping or playing baby.

Congratulation!

Now you can take care of your babies anywhere and anytime! Please read the user manual before you use! Note: Please retain your original dated sales receipt for record purpose. For warranty service of your Videotimes product, you will need to provide a copy of your dated sales receipt to confirm warranty status. Registration is not required for warranty coverage. Before you use the product, we recommend you fully charge the battery in the parent unit, so that it continues to work even when you disconnect it from the power supply and take it to another location. Please read the Safety instructions.

Please make sure you have the following in your package.
1. Parent unit x 1;
2. Baby unit x 1;
3. Adapter x 2;
4. User manual x 1;
5. Wall-mounting parts;

1.SAFETY INSTRUCTIIONS

CAUTION: Keep the device away from children.

Strangulation Hazard: Children can become entangled in the cords, therefore power cords should be kept more than 3 feet away from the crib and baby's reach at all times. Baby monitors and cameras with power cords should never be hung on or near the crib. This product is not a toy and should be kept out of children's reach. This product contains small parts, so exercise care when unpacking and assembling the product.

Read and keep to instructions: All the safety and operating in structions should be read before the video baby monitor is operated. This product cannot replace responsible adult supervision.

Water and moisture: This product is designed for indoor use only. The unit should not be exposed to rain, moisture, dripping or splashing. No objects filled with liquid should be placed on top of, or beside the product, such as a glass or vase. This item should not be used near water.

DO NOT: Use the appliance if the cord or plug is damaged. If your baby monitor is not operating properly or has suffered any damage, contact "Videotimes" service center to request inspection and repair of the appliance in order to avoid any possible risk.

DO NOT: Attempt to repair or adjust any of the electrical or mechanical functions of the unit, if you do, the guarantee will be made void.

Ventilation: This baby monitor should not be used on a bed, sofa, rug or similar surface that may block the ventilation openings, or be placed in an enclosed area such as a bookcase or drawer that may impede air flow.

Keep away from sources of heat: This unit should not be exposed to direct heat sources

---

such as a candle,radiator,heat register, stove or other appliance that emits heat. The unit should not be left in direct sunlight.

Power source: This unit should only be used with the AC power adapters included in this package (rated 6V 600mA).

Damage requiring service: This unit should be serviced by qualified personnel only when:
1. Objects have fallen or liquid has been spilled into the product;
2. The units have been exposed to rain;
3. The units do not appear to operate normally or exhibits a distinct change in performance;
4. The units have been dropped or the enclosure damaged;

FCC STATEMENTS:

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device may accept any interference received, Including; interference that may cause undesired operation.
NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, in pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by

---

turning the equipment off and on, the user is encouraged to try to correct the interference by taking one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC STATEMENTS:

This device complies with Industry Canada license-exempt RSS standard(s):
Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device may accept any interference, including interference that may cause undesired operation of the device.Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

We take quality very seriously; this is why all of our products come with a one year warranty from the original purchase date against defects in workmanship and materials. If you have warranty or support issues, please contact the store where you purchased the product.

3.INSTALL IMPORTANT GUIDELINES

*To use your parent unit and baby unit together, you must be able to establish a radio link between them, and the range will be affected by environmental conditions.
*Any large metal object, like a refrigerator, a mirror, a filling cabinet, metallic doors or reinforced concrete between the baby and parent unit may block the radio signal.
*The signal strength may also be reduced by other solid structures, like walls, or by radio or electrical equipment, such as TV, computers, cordless or mobile phones, fluorescent lights or dimmer switches.
*Use of other 2.4GHz product, such as wireless networks (Wi-Fi routers), Bluetooth systems, or microwave ovens, may cause interference with this product, so keep the baby monitor away at least 5ft (1.5m) from these types of products, or turn them off if they appear to be causing interference.

4.PLACEMENT OF THE BABY MONITOR

This camera can be placed on a tabletop or hung on the wall; Place the baby monitor in a place where the air can circulate freely; Do not place on soft quilts or blankets or in the corners of cupboards, shelves, etc;

2. WARRANTY TERMS

Place the baby monitor away from heat sources such as radiators, chimneys, cookers and direct sunlight; Place the baby unit away from TV sets, microwave oven and radios. The intense radio signals generated by these elements could cause noise or even sounds and images to appear on the monitor. If this occurs, move the camera to another location;
*Place the camera within 15 feet of the area being monitored for best picture result.
*Baby monitors and cameras with power cords should never be hung on or near the crib as it can cause strangulation hazard. Power cords should be kept no less than 3 feet away from the crib and the baby's reach at all times.

5. Instructions for using a baby monitor

5.1 TURN ON THE BABY UNIT:

*Only use the A/C adapter included in this package (6V, 600mA);
 1. Locate the connector socket on the back of the baby unit;
 2. Connect the adapter cable to the baby unit;
 3. Plug the A/C adapter into the wall outlet.
 4. Once the adapter is connected, the power LED will light up.

5.2 TURN ON THE PARENT UNIT:

*Only use the A/C adapter included in this package (6V, 600mA);
*The parent unit is supplied with a built-in rechargeable Li-ion battery (3.7V 950mAh). We suggest to connect the monitor to the adapter plugged into the mains whenever possible, in order to keep the battery charged;

---

1. Locate the connector socket on the right side of the parent unit;
2. Connect the adapter cable to the parent unit;
3. Plug the A/C adapter into the wall outlet;
4. Press and hold the power key on the top of the parent unit;
5. Once parent unit is on, the power LED will light up and the image will display on the LCD;

5.3 TO CHARGE THE PARENT UNIT:

1. Connect the power adapter to the parent unit;
2. Plug the adapter into the mains, then the charging LED on the parent unit will light in RED; the battery icon at the top right corner of the screen will start rolling;
3. The battery pack takes less than 8 hours to charge fully, then the battery icon at the top right corner of the screen will be fixed;

Warning:
Choking hazard - Keep the cord out of the baby's reach. Never place a camera with cables less than 3 feet from the cot. Never use extension cords with A/C adapters. Use only the A/C adapters supplied.
