Instructions

▲ This product includes a button battery that can be used as an emergency power source and has a memory function. No need to reset the alarm after power off. Remove the insulation sheet from the button battery when using for the first time.

Time Setting

In power-on state, have a long press on "⌚" for 2 seconds to enter time setting:
Use "⌚/⌚" to set "hour", press "⌚" to confirm;
Use "⌚/⌚" to set "minute", press "⌚" to confirm;
Use "⌚/⌚" to choose "12/24H", press "⌚" to confirm; finish setting.

LED Time Display Brightness

In power-on state, short press "☀" to adjust the brightness of LED display.
There are three brightness options.
The order of brightness changes is: High brightness – Medium brightness – No brightness.

Alarm Clock Function

Alarm Clock Group

This product supports dual alarm clock mode.

You can set two different alarm times.

For example, set the Alarm clock 1 for weekdays and set Alarm clock 2 for weekends.

When the weekend comes, you can turn off the Alarm clock 1

Their operation and setting are exactly the same (take Alarm 1 as an example in the instruction).

Turn ON/OFF Alarm Clock

In time state, press "⌚" to turn on alarm, and corresponding icon is displayed in time area.
After turning on alarm, press "⌚" to turn off alarm, and corresponding icon will disappear.

Alarm Clock Setting

In time state, have a long press on "⌚" for 2 seconds to enter alarm setting.
Use "⌚/⌚" to set "Hour", press "⌚" to confirm.
Use "⌚/⌚" to set "Minute", press "⌚" to confirm.

Alarm Ringtone Setting

Use "⌚/⌚" to set ringtone, press "⌚" to confirm.
Option 1~7 is the wake-up ringtone. (There are: bird singing, ocean sound, stream sound, beep, windbell, soft music and piano music.)

Option 8 is FM radio

You can use natural wake-up sounds or the FM radio to wake up to.
(Note: The channel that the FM radio wakes up depends on the channel you last listened to.)

Alarm Volume Setting

Use "⌚/⌚" to set Alarm Volume (Volume Range: V-01~V-16), and press "⌚" to confirm.

When the set alarm time arrives, the wake-up ringtone will gradually sound.

Wake Up Light Brightness Setting

Use "⌚/⌚" to set brightness of wake-up lights (OFF, L-01~L-20), and press "⌚" to confirm.

(Note: When the set alarm time arrives, the light will slowly turn from dark to the preset brightness level. OFF means turning off the light. Set the light state to OFF when you don't need a light wake up.)

Simulated Sunrise Time Setting

Use "⌚/⌚" to set advance time to lighten (10~60MIN), and press "⌚" to confirm, finish setting.
You can set the light to turn on 10~60 minutes before the alarm sounds.
In the set sunrise simulation time the light intensity of the lamp gradually increases to the set level and the light color changes from deep morning red to bright daylight.

Snooze Function

- When alarm clock goes off, press "⌚" to enter snooze state, you can get an extra 9 minutes of sleep time. (Note: snooze up to 5 times)
- When alarm clock goes off (or snooze state), press the corresponding alarm clock button to turn off lights and sound.
- When alarm clock goes off, if there aren't any operations within 15 minutes, it will turn off lights and sound automatically.

Sleep Mode

In time state, press "⌚" to turn on/off sleep mode.

Sleep Mode Setting

In time state, have a long press on "⌚" for 2 seconds to enter sleep setting.
Use "⌚/⌚" to set "Sleep Time" (Optional setting time range is 10~120 minutes), press "⌚" to confirm.

Lights Initial Brightness Setting

Use "⌚/⌚" to set "Lights Initial Brightness" (OFF, L-01~L-20), press "⌚" to confirm.

(Note: Contrary to the sunrise mode, the light will gradually dim in sleep mode. OFF means turning off the light. Set the light state to off when you don't need light-assisted sleep.)

Sleep Music Setting

Use "⌚/⌚" to set "Sleep Music" (Natural Sound-1~3, FM-4), press "⌚" to confirm.
There are 3 kinds of ringtone can be selected.
There are: Rain, Forest and River sound.

(Note: The channel that the FM radio depends on the channel you last listened to.)

Volume Setting

Use "⌚/⌚" to set "Initial Volume" (Range: V-01~L-16), press "⌚" to confirm, finish setting.

press the "⌚" button again to turn off sleep mode.

(Note: When the sleep mode is turned off, the light does not turn off directly. Instead, it will slowly turn from bright white to deep red until it is completely closed.)

Lighting Function
