CAUTION: HOT SURFACES
Do not touch the battery or other components of the laptop when it is powered on or immediately after it has been powered off. The battery and other components can become very hot and may cause burns or other injuries. Wait until the battery and other components have cooled down before touching them.

Do not use the laptop in a flammable or explosive atmosphere. The laptop can generate sparks or heat that could ignite a flammable or explosive atmosphere. Do not use the laptop near flammable or explosive materials, such as gasoline, oil, or other fuels.

Do not use the laptop in a confined space. The laptop can generate heat that could cause a fire or other hazard. Use the laptop in a well-ventilated area.

Do not use the laptop in a wet or damp environment. The laptop can be damaged by moisture and may cause a fire or other hazard. Do not use the laptop in a wet or damp environment.
