### MATTERS NEEDING ATTENTION:

- Don't place the tablet close to heat sources such as radiator, oven, stove, microwave oven or other items that generate heat.
- Don't put the tablet in humid or wet places. If there is water, please cut off the power immediately to avoid electrical accidents.
- Avoid falling, knocking, oversteering or vibration of the product.
- Please take good care of the stylus, battery, motherboard and other components, which are fragile.
- It is suggested that if it is not used for a long time, the key of the lock screen can be turned off to avoid battery power consumption.
