## 1. Safety instructions

This product complies with the requirements of the following European Union Directives for CE conformity: 2014/30/EU (Electromagnetic Compatibility), 2011/65/EU (RoHS).

We hereby confirm that this product complies with the essential protection standards specified in the Council Instructions for the Adaptation of the Administrative Provisions for the United Kingdom of Electromagentic Compatibility Regulations 2016 and the Electrical Equipment (Safety) Regulations 2016.

## **K ( €**

Damage caused by non-observance of the following instructions is excluded from claims of any kind.

- \*Do not expose the unit to extreme temperatures, direct sunlight, extreme humidity or moisture.
- \*Handle the appliance with extreme caution when it is switched on (laser beam emission).
- \*Never point the laser beam at the eye
- \*Do not point the laser beam at gaseous substances or gas containers (risk of explosion).
- \*Keep laser beam away from reflective objects (risk of injury to eyes).
- \*Avoid contact with laser beam (do not expose body to laser beam emission).
- \*Do not operate the unit near strong magnetic fields (motors, transformers, etc.)
- \*Avoid strong vibrations of the appliance.
- \*Keep hot soldering guns away from the immediate vicinity of the appliance.
- \*Before starting operation, the unit should be stabilised to the ambient temperature. (Important when transporting from cold to warm rooms and vice versa).
- \*Do not make any technical changes to the unit
- \*Opening of the unit and maintenance and repair work may only be carried out by qualified service technicians.
