Wireless Indicator Light
Keyboard connection operation:

1. Turn on the power supply, and the green indicator light will be lit for one second (if the instruction is   red, please charge in time).

Press the matching key "Fn+C/🔗" for 2 second, the Wireless indicator lights flicker into the   pairing state, and the effective time is about 120 seconds.

Open the Wireless search function of the external device, click the "Wireless Keyboard" searched.

. After the pairing is successful, the indicator lights go out, and you can use the keyboard.

2.   If there is no operation in 10 minutes, the keyboard will go to sleep state and wait for 2~3 seconds by any key to wake up.

Three-channel Bluetooth keyboard connection operation:

1. Turn on the power supply, the green indicator lights for 1 second (if the indicator is red, please charge in time)

Pressing the matching key " Fn+C/🔗 " above 2 seconds, the Wireless indicator lights flicker into the pairing state, and the effective time is about 120 seconds.

Open the Wireless search function of the external devices, click the "Wireless Keyboard" searched.

After the pairing is successfully, the indicator lights go out, the first device 📶₁ is connected by default and you can use the keyboard.

2. Pressing Fn+📶₂ or 📶₃, then pressing the matching key " Fn+C/🔗 " above 2 seconds, the Wireless indicator lights flicker into the pairing state, and the effective time is about 120 seconds. Open the Wireless search function of the external devices, click the "Wireless Keyboard" searched. After the pairing is successful, the indicator lights go out, and you can use the keyboard.

3. If there is no operation in 10 minutes, the keyboard will go to sleep state and wait for 2~3 seconds by pressing any key to wake up.

4. Pressing Fn+ 🛜₁ or 🛜₂ or 🛜₃ to switch the keyboard between three-channel devices. When switching, the Bluetooth light up, indicating that the switch is completed.
Disconnect the keyboard connection:

*   If you want to break the connection between keyboard and device, please clear the pairing information in the device, or turn off the keyboard power directly.

Electricity indicator:

*   If the power indicator light is red slowly, the power is low, please charge it in time, the red light is bright when charging. When the indicator is green, it is full, . please disconnect the charging power to ensure safety.

Shortcut function key: Please note that the function key only works under the corresponding operation interface; If the function key is blue, please press Fn key combination to use; Due to external device or system update, there may be some inconsistency between individual function keys and   instructions. If this happens, please refer to the real object.
