

The Turblo 2 is a pocket-sized, ultra-light electric pump with digital pressure sensor and auto-stop. The smart design enables effortless use and control, even in the dark and with gloves on, thanks to the grip-texture shell, LED light and bright digital screen with pressure progress bar. Powered by a full metal motor with carbon push rod and optimized cooling, the Turblo 2 is extremely fast, precise and reliable. Per charge of the 500 mAh 2S, high tech, lightweight, Li-Po battery, it inflates up to 5 road tires from 0 to 5.0 bar/73 PSI or 8 MTB tires from 0 to 1.5 bar/22 PSI. Includes USB-C cable, Schrader hose, Presta- and Schrader adapter, and splash proof bag. Always inflate or top-up to the exact pressure you desire, even in emergency situations.
