

TX009PB-1

Mail Delivery Box — Instruction Manual

Model	TX009PB-1
Structure	Body & Bolts / Steel
Surface Finish	Powder Coating
Size	Approx. Width 41.0 × Depth 26.5 × Height 110 cm
Weight	Approx. 18 kg
Manufactured in	China
Sold by	Joyful Honda Co., Ltd. 1-16-2 Fujisaki, Tsuchiura City, Ibaraki Prefecture

Introduction

Thank you for purchasing this product. To ensure long-term safe use, please read this instruction manual carefully before use. After reading, keep it in a place where anyone using the product can access it at any time.

Please note that we cannot be held responsible for malfunctions, repairs, accidents, or other issues arising from use outside the intended purpose.

■ Safety Warnings

- **Intended use only:** Do not use for any purpose other than its intended use. This product is designed solely to hold mail and newspapers.
- **Sharp corners:** The product is made of steel and has sharp corners — take care during installation and when handling.
- **Wear gloves:** Always wear gloves when cleaning or maintaining the product.
- **Do not place objects on top:** Never place objects on the top of the product.
- **Mail slot:** Do not insert your hand into the mail slot — it may become stuck.
- **Wet weather:** On days with heavy rain, strong wind, or extended rainfall, remove mail from the box promptly.
- **Cleaning:** Never use thinner, benzine, or similar solvents when wiping off dirt — they may cause discoloration. Also avoid metal brushes, scrubbing pads, or abrasive cleaners, as these may cause scratches.
- **Children:** Keep children from climbing on or playing with the product, as this may cause injury, damage, or accidents.

- **Installation surface:** When mounting on a wall or pillar, do not install on a surface that is not vertical — this may prevent the product from functioning properly.
- **Paint odor:** Upon unpacking, paint odors may be present. People sensitive to chemicals may experience allergic reactions — avoid installing in enclosed or indoor spaces.
- **Earthquake risk:** In the event of an earthquake, the mounting point may break and the product may fall. When installing on walls, fences, or pillars, confirm the shape, material, and thickness of the mounting surface, and use appropriate fixtures where necessary.
- **Rust prevention:** Although stainless steel is rust-resistant, leaving dust, soot, dirt, or iron particles on the surface can inhibit oxide film regeneration and cause rust. Wipe with a damp cloth; remove grease with a neutral detergent, then rinse with water.
