SUREFIRE

TOURNAMENT KING

Where desk space is a premium, the KingPin X1 delivers all the functionality of a regular gaming keyboard compressed neatly into a 60% form-factor. Perfect for taking to events, LAN parties or tournaments or for gamers who just prefer minimalistic or smaller set ups.

GAMING IN COLOUR

With 8 static colours and 3 active lighting modes, and adjustments for speed and intensity, players can create the perfect vibe. It can be cool, it can be edgy, it can be fun – it's up to you.

LONG LIVE THE KING!

With its tough 1.8m braided cable and a lifetime of 10 million key hits, you can be assured that the SureFire KingPin X1 will stay with you throughout every battle. Accuracy and control is maintained with 25 anti-ghosting keys proving you with the support you need in the midst of high intensity game play.

LESS IS MORE

Using a keyboard with the "right keys" avoids many unintentional key combinations. The theory is that the fewer keys you have, the less likely you are to hit what you shouldn't, right?

GENERAL

Dimension (LxWxH)	292 x 102 x 41 mm	**Weight**	395 g
Size Type	60%	**Height**	Adjustable - 2 positions
