earpods

Introduction

Before using your Earpods for the first time, please take a few moments to read through the user manual.

Operation

To remove your Earpods from the travelpod (1), pull the rubber case apart to the open position (2) and gently unwind the cord until free. Select the correct ear tip size (4) and place on the end of the earpiece, holding the ear tip at a slight angle will help the insertion. Test to make sure the fit is secure by gently pulling on the tip; it should not come loose. Connect the earpods cord (6) to your audio source, adjust the sound to a moderate volume and enjoy the music.

When receiving an incoming call, your music track will pause and you will be able to hear your regular ringtone. To accept the call, press the > button (5) on your remote. Once the call is finished, your track will start again automatically.

- + Click this button to increase volume (3)
- Click this button to decrease volume (7)
- > Click this button to play or pause track (5)
- >> Click this button twice to play next track (5)
- << Click this button three times to play last track (5)
- < Click this button to take calls (5)

Storage

Pull apart your travelpod, slot the cord near the jack end (8) into the channel at the centre (3). Gently wind the cord up, pop the travelpod shut and drop into your bag - simple.
