

1

Use a nail extension stick on your finger.

2

Take the suitable amount of acrylic liquid and dip.

3

Dip the acrylic powder with a brush.

4

Use the brush apply the acrylic mixture on the nail.

5

When the acrylic mixture dry, remove the nail form.

6

Shape nail edge and file nail surface. Finish.

# How to Use

The acrylic powder system doesn't need a nail lamp to cure, which can avoid turning skin black and damaging skin from a nail lamp.
