

Recycle information.

Batteries, electrical and electronic equipment (EEE) contain materials, components and substances that can be hazardous to the environment and harmful to human health if waste electrical and electronic equipment (WEEE) is not disposed of properly. Batteries, electrical and electronic equipment marked with the WEEE logo (as shown below) should not be disposed of with household waste. Contact your municipality's waste management department as they can provide you with information about the recycling options available in your area.

Dispose of all packaging materials in an environmentally friendly manner.

**Conformity**
